NUMBER 1

Original Communications:

Effects of Hyperkalemia on Local Changes of Repolarization Duration in Canine Left Ventricle
By *T. Tsutsumi, R.F. Wyatt and J.A. Abildskov* 1

Mechanisms of Intermittent Ventricular Parasystole Due to Type II Second Degree Entrance Block
By *S. Kinoshita* 7

Electrocardiographic Recognition of Left Atrial Enlargement
By *D.H. Miller, R.R. Eisenberg, P.D. Kligfield, R.B. Devereux, P.N. Casale and M.C. Phillips* 15

The J Wave in Accidental Hypothermia
By *M. Okada, F. Nishimura, H. Yoshino, M. Kimura and T. Ogino* 23

Pre-Excitation Syndrome and Hypertrophic Cardiomyopathy
By *A.M. Perosio, L.D. Suarez, A.M. Bunster, A. Locreille, O.A. Apkarian, M.A. Vallazza and R. Foye* 29

Site of Conduction Delay in Children with Catheter-Induced Right Bundle Branch Block
By *A. Ramos, G.S. Wolff and H. Gelband* 41

Effects of Timing of Vagal Stimulation on the Sinoatrial Nodal Cell Discharge
By *J. Goto, J. Toyama and K. Yamada* 45

QRS Loop Areas in Selective Right Ventricular Overload: Relation to Hemodynamic Status
By *E.I. Curtiss and A.A. Cecchetti* 53

The Relationship of Carotid Sinus Stimulation to Exercise Testing
By *A.S. Gooch, M. Kirschbaum, K.B. Mohan and S.D. Cha* 59

Value of Ventricular Premature Complex (VPC) Morphology in the Diagnosis of Hypertrophic Cardiomyopathy
By *A.M. Abdulla, A.V. Baute, L.B. Friedland, M.I. Canedo, M.A. Stefadouros and M.J. Frank* 73

Prognosis in Severe Chronic Obstructive Pulmonary Disease with Regard to the Electrocardiogram
By *J.M. Smit, J. Burema, J.F. May, D.S. Postma, H.J. Sluiter and E.J. Steenhuis* 77

Beta Blockade in Asymptomatic Diabetics with Abnormal Rest Electrocardiograms
By *A. Merdler, E.G. Abinader, M.Y. Flugelman and Y. Kanter* 87

Comparison between Electrophysiologic Studies and Ambulatory Monitoring in Patients with Syncope
By *H. Boudoulas, P. Geleris, S.F. Schaal, C.V. Leier and R.P. Lewis* 91

Comparative Diagnostic Performance of the Telemed Computer ECG Program
By *P. Bernard, B.R. Chaitman, J.M. Scholl, P.G. Val and M. Chabot* 97

Case Studies:

Reduced Human Ventricular Fibrillation Threshold Associated with Contrast-Induced Q-T Prolongation
By *M.H. Lehmann and R.B. Case* 105

Letters to the Editor:

Familial WPW Syndrome
By *D. Freed and P.C. Gillette; B.L. Chia and A. Tan* 111

NUMBER 2

Original Communications:

The Electrogenesis of Terminal QRS Notches in Normal Subjects
By *D.M. Mirvis* 113

Function of Atrial Preferential Conduction Routes under Normal and Abnormal Conditions
By *M. Hiraoka and H. Adaniya* 123

Ventricular Ectopic Beats with Exit Block: A Retrospective Holter Monitor Study
By *G.J. Anderson and M. Greenspan* 133

The Impact of an ECG Computer Analysis Program on the Cardiologist's Interpretation A Cooperative Study
By *J.A. Milliken, H. Pipberger, H.V. Pipberger, M.A. Araoye, R. Ari, G.W. Burggraf, R.D. Fletcher, R.J. Katz, E.A. Lopez, Jr., J.L. McCans and A.M. Silver* 141

Human Body Surface Mapping during Atrial Depolarization in Normal and Diseased Subjects
By *S. Kawano, T. Sawanobori and M. Hiraoka* 151

The Effect of Maximal Treadmill Exercise on the Axis and Amplitude of the Ventricular Depolarization Wave
By *J.A. Paraskos, H. Gratema, W.S. Walker, L.A. Pape and J.S. Alpert* 161

Alterations Induced by a Single Defibrillating Shock Applied through a Chronically Implanted Catheter Electrode
By *M.A. Barker-Voelz, J.F. Van Vleet, W.A. Tacker, Jr., J.D. Bourland, L.A. Geddes and M.P. Schollmeyer* 167

The Influence of Editing on the Performance of a Computer Program for Serial Comparison of Electrocardiograms
By *R.E. Bonner, L.E. Crevasse, M.I. Ferrer and J.C. Greenfield* 181

Electrophysiologic Changes Induced by External Transthoracic Countershock
By *G.J. Anderson and J. Reiser* 191

Review Article:

Isolated and Complicated Left Anterior Fascicular Block: A Review of Suggested Electrocardiographic Criteria
By *J.A. Milliken* 199

Case Study:

Sudden Death in Two Patients with Variant Angina and Apparently Minimal Fixed Coronary Stenoses
By *P.E. Puddu, M.G. Bourassa, D.D. Waters and J. Lesperance* 213

Letters to the Editor:

Three-level Block in Concealed Bigeminy
By *S. Kinoshita; J.K. Bissett* 221

Number 3

Original Communications:

An Electrocardiographic Model of Myocardial Ischemic Injury
By G.T. Smith, G.G. Geary, W. Blanchard, T.H. Roelofs, W. Ruf and J.J. McNamara 223

Signal Quality of Resting Electrocardiograms
By *R.M. Arthur* 235

Non-Invasive Recording of Late Ventricular Activity Using an Advanced Method in Patients with a Damaged Mass of Ventricular Tissue
By *S. Abboud, B. Belhassen, S. Laniado and D. Sadeh* 245

Computer Analysis of the Spatial Angular Parameters of the Canine QRSsÊ Loop from Necropsy-Verified Normal Dogs
By *E.E. Musselman* 253

Computer Analysis of the Non-Angular Parameters of the QRSsÊ Loop and Orthogonal Lead QRS Characteristics in Necropsy-Verified Normal Dogs
By *E.E. Musselman and K.E. Church* 263

An Electrocardiographic-Electrophysiologic Correlation of Aberrant Ventricular Conduction in Man
By *S.T. Denker, C.J. Gilbert, M. Shenasa and M. Akhtar* 269

Effects of Thoracotomy on Volume Conductor Properties of the Canine Torso
By *D.M. Mirvis* 279

Significance of High Voltage QRS Anterior Forces in Young Asymptomatic Adults. Evaluation by Wide-Angle Two-Dimensional Echocardiography
By *F. Loperfido, A. Digaetano, F. Pennestri, R. Mongiardo, S. Infantino, R. Fanelli, P. Guccione and E. Coppola* 287

Coronary Angiographic Assessment of Left Posterior Hemiblock
By *L.A. Papa, A. Scariato, R. Gottlieb, P. Duca and H. Kasparian* 297

A Possible Autonomic Modulation of Sinus Node Recovery Time in Overdrive Suppression Test
By *Y. Aizawa, O. Hosokawa, M. Morikawa, T. Shibuya, T. Ozawa and A. Shibata* 303

Prevalence of Left Ventricular Hypertrophy in Middle-Aged Men According to Various ECG-VCG Techniques
By *G.G. De Backer, R. Zenner, M. Kornitzer, D.L. Clement and M.M. Dramaix* 307

Case Studies:

Unusual Atrial Potentials in a Cardiac Transplant Recipient. Possible Synchronization between Donor and Recipient Atria
By *R.S. Bexton, K.J. Hellestrand, R. Cory-Pearce, R.A.J. Spurrell, T.A.H. English and A.J. Camm* 313

Letters to the Editor:

Determination of Cardiac Frontal Plane Vector Axes
By *C.L. Webber, Jr., A-Hamid Hakki, A.S. Iskandrian, G.J. Anderson and B.L. Segal* 323

NUMBER 4

Original Communications:

Atrial Coronary Angiography, Tachyarrhythmias and the Ta Segment
By *N.J. Pickering and T.R. Engel* 325

Multiple Atrioventricular Nodal Pathways — A New Electrophysiological Phenomenon in Children
By *A. Casta, G.S. Wolff, D. Tamer, C.J. Flinn, A.V. Mehta, K.G. Smith and H. Gelband* 331

Real-Time Measurement of the Spatial Magnitude of the ST Segment with the Automated Vectorcardiographic ST Segment Analyzer
By *A. Kuroiwa, T. Fukumoto, Y. Senda and Y. Nakashima* 339

Post-Exercise Changes of the Q-T_c Interval in Coronary Heart Disease
By *E. Macieira-Coelho, F. Monteiro, J.M. da Conceição, D. Cunha, J. Cruz, A. Almeida and T. de Sousa* 345

Circadian Rhythms in Dynamic Electrocardiography
By *V. de Leonardis, P. Cinelli, F. Capacci, M. De Scalzi and S. Citi* 351

Beat to Beat Surface Recording and Averaging of His-Purkinje Activity in Man
By *S.N. Erné, R.R. Fenici, H.-D. Hahlbohm, H.P. Lehmann and Z. Trontelj* 355

The Effect of Left Atrial Histology and Dimension on P Wave Morphology
By *C.C. Scott, C.V. Leier, J.W. Kilman, J.S. Vasko and D.V. Unverferth* 363

On the Relationship between Q Waves in Leads II and aVF and Inferior-Posterior Wall Motion Abnormalities
By *A. Mazzoleni, A.D. Hagan, M.U. Glover and W.V.R. Vieweg* 367

Correlation between Divalent Cation Concentration and Electrocardiogram in Canine Myocardial Infarction
By *J.B. Woods, J.H. Holt, and W.T. Woods* 379

Possible Role of a Ventricular Conduction Disturbance in the Electrogenesis of the ECG-VCG Signs of Myocardial Infarction
By *E. Piccolo, P. Delise, A. Raviele, D. D'Este, F. Lucangeli, P. Pascotto, F. Dainese and F. Di Pede* 385

An Advanced Non-Invasive Technique for the Recording of His Bundle Potential in Man
By *S. Abboud, B. Belhassen, A. Pelleg, S. Laniado and D. Sadeh* 397

Methods:

An Optimal Method for Calculation of the Frontal-Plane Vector from the Data of the Standard and Unipolar Limb Leads
By *N. Ikeda, J. Yamagami, Y. Morohoshi, H. Miyahara and T. Sato* 403

Recent Progress in Cardiac Pacing:

Effect of Site and Intensity of Pacing on Left Ventricular Performance
By *S.D. Moulopoulos, D.A. Sideris, J.N. Nanas, D. Economou and C. Vemmos* 409

Annotation:

Contourographic QT Interval Measurement
By *J. Torresani, P.E. Puddu, F. Langlet and R. Jouve* 417

Case Study:

Transient Right Bundle Branch Block and Left Anterior Hemiblock during Prinzmetal's Angina
By *J. Ortega-Carnicer and J. Paylos* 419

Index 423
